Mental Causation: The Metaphysics

problem for mental causation if you are an advocate for physicalism.

Jaegwon Kim's causal exclusion argument states that if all physical effects have sufficient physical causes, and no physical effects are caused twice over by distinct physical and mental causes, there cannot be any irreducible mental causes (Kallestrup 2006). Problem of mental causation -

Wikipedia Physicalism and mental causation (Part I) Debate by Death Monkey (Philosophy Forum) [Quote by Minty] I read that the original motivation for materialism was a need to explain the place of mental causation in the physical world. So if a decision is identical to some process in the brain, then mental causation can be said to

exist. Physicalism and mental causation -

Menzies -- 10. Kim on closure, exclusion and nonreductive

physicalism √ Paul Raymont -- 11.

Methodological and ontological aspects of the mental causation

problem √ Ausonio Marras --

12. Physicalism and mental

causation : the metaphysics of mind

... For the contemporary physicalist, I believe that there are two

problems that truly make the mind-body problem a Weltknoten, an

intractable and perhaps ultimately insoluble puzzle. These problems

concern mental causation and

and Consciousness: The Two Mind-  
Body ... Mental causation -- in

particular causation of physical  
effects by mental causes -- is often  
taken to be problematic, or even  
mysterious, especially if one takes  
the putative mental causes to be  
non-physical entities of some sort.

Suppose I see a slice of chocolate  
cake on the table, and then form  
the desire to eat it. Mental

Causation: A Counterfactual Theory

// Reviews ... Physicalism is the view

that minds and thoughts are made  
of the same substance; they are  
made of material substances just as  
our bodies. According to

physicalists, mental states are  
physical states. Substance Dualism  
and Physicalism Explained -

MyGestalTherapy Mental causation:

interact - thoughts, feelings, and perceptions, bring about bodily actions. Spatial location: Wherever there is causation, the cause and its effect must have spatial location.

Dualism: The mind has no spatial location - there is no spatial location to thoughts, feelings, or perceptions. Causation, Mental | Internet Encyclopedia of

Philosophy Mental Causation The Problem of Mental Causation has been with us at least since René Descartes claimed that mind and body are separate substances. If the body is only physical and material, how can a non-physical and immaterial mind possibly act on the body. Mental Causation - Information Philosopher This suggests that, rather than let a

priori conceptions of causation (or properties, or causal powers) lead us to regard mental causation with suspicion, we should reason in the other direction: revise our conception of causation to fit our actual scientific beliefs and practices. If the metaphysicians were right about causation, no science would be possible beyond basic physics (biological properties, for instance, would lack causal efficacy). Mental Causation (Stanford Encyclopedia of Philosophy) The first premise of this argument is the thesis of the Causal Closure of the Physical — that is, the thesis that every event which has a cause has a physical cause. The second premise is that mental events cause physical events — for example we normally think that

events such as the raising of your arm (a physical event). Physicalism (Stanford Encyclopedia of Philosophy) Focusing on mental properties, the concern is that there is no way to reconcile the NRPist's assumptions that (i) mental properties exist, (ii) mental properties are efficacious, (iii) mental properties are distinct from yet completely metaphysically dependent on physical properties, and (iv) the physical is causally closed (every physical effect has a purely physical cause), with the assumption that (v) effects are not systematically causally overdetermined (a.k.a. 'the exclusion ... Physicalism Deconstructed: Levels of Reality

note: my main point is that reductive physicalism requires that, for any phenomenological similarity between two mental states, that similarity must hold in virtue of a physical similarity explains or constitutes the phenomenal similarity; that is, the fact that there is a phenomenal similarity has as its ground the fact that there is a physical similarity. QUALIA AND MENTAL CAUSATION IN A PHYSICAL WORLD This book presents a range of essays on the conceptual foundations of physicalism, mental causation and human agency, written by established and leading authors ... Sven Walter & Heinz-Dieter Heckmann (eds.), Physicalism ... Mental causation occurs when mental entities cause

other mental and physical entities:

seeings causing believings, itches causing scratchings, headaches causing eye twitches, and so

on. Mental Causation - Philosophy - Oxford Bibliographies 3.2

Nonreductive physicalism and mental causation The causal argument's conclusion that mental events are identical with physical events entails that mental properties are identical with physical properties if we hold with Kim (1993: 33–52) that events just are property

exemplifications. Physicalism | Analysis | Oxford Academic The argument from causal closure of the physical (CCP) is usually considered the most powerful argument in favor of the ontological doctrine of physicalism. Many
